OBJECTIVE

To apply my skills in a work environment and at the same time build new life skills.

SKILLS

I can learn new and needed skills quickly.

My programming language of choice is JavaScript. I'm very experienced with NPM and Node.js. I'm also skilled in Java and Python. Although, I'm currently working to understand React and Next.js

EXPERIENCE

MAIN DEVELOPER/SWISH
July 2021-Dec 2021

I created and maintained an account creation tool at swish. During this time, I research HTML CSS JS and HTTP. Using Node.js to create an application which was received positively within the community

TECH/C-TECH
2019-2021

During the time at C-tech I learned how to build and diagnose computer hardware. The job required talking and helping people through the inner workings of Windows, Linux and Mac-OS
